REQUESTED TESTS

Record your sample name(s) and indicate (x) for required tests. Attach additional sheets if necessary.

Lab Use	Sample Name	Paddock or Bore	F.NIRS	Phosphorus Test

Cattle diet quality predictors are made by Faecal Near Infrared Reflectance Spectroscopy (F.NIRS).

If 'Phosphorus Test' is selected, faecal concentration of phosphorus and calcium are measured by ICP-OES.

Please include a hard copy of this form with samples.

*Gcology does not provide management advice.

To support accurate decision making, your feed advisor requires stock and vegetation information as recorded in the [Sample Information Form](#).

Post dried samples to **Gcology, PO Box 1187, Osborne Park DC, WA 6916**
